The
WESTMINSTER
NURSERY

Catalog

For Farm, City and Suburban Homes
J. E. STONER, Proprietor
WESTMINSTER, MARYLAND

OUR CATALOG

With Planters' Special Price List

Season 1928

THIS is our Price List of Nursery Stock for Farm and City or Suburban Homes. We can supply promptly any quantity and the exact variety you may order, from enough stock to plant a commercial orchard or cut-flower farm to a few choice shrubs or rose bushes for your home grounds.

With the added facilities of a new building now under construction, of solid masonry, to house our office and shipping departments, we can give prompt attention to your correspondence and orders. We are confident that the benefits of this new plant will be appreciated by all those with whom we do business.

As Nursery specialists, we are continually adding to our already well balanced stock of varieties, new and rare items of special interest.

Important Information for Customers

Please Read Carefully Before Ordering

In presenting our 1928 Price List we assure all customers of prompt attention to orders and inquiries. We appreciate the confidence our customers have placed in us, and this catalog lists only stock which we believe is desirable and can recommend highly.

RELIABILITY

Thirty-four years of growing high grade nursery stock has placed us among the foremost nurserymen in the country. Dun, Bradstreet, or any bank or business house in Westminster will vouch for our reliability.

HOW TO ORDER

In making out your order, be particular to specify just what variety is wanted. Your name, post office and shipping point should be written plainly to avoid mistakes. If you are in doubt as to whether your stock should go forward by express or freight, you may safely leave the decision to our judgment.

TERMS

Cash with order, except in large orders, where satisfactory reference is given.

HOW TO REMIT

Remittance should be made by check, post office money order, express money order, draft, or registered letter.

RATES

Five or more at ten rate.
Fifty or more at hundred rate.
Four hundred or more at thousand rate.

PARCEL POST

Small packages can be forwarded by parcel post. POSTAGE is required on orders to be sent by parcel post. SEND PAYMENT WITH ORDER. All orders are acknowledged immediately upon receipt.

GRADING

We guarantee every tree, plant, etc., to be up to grade specified or better. All our fruit trees are graded by height and caliper.

BOXING AND PACKING FREE

We box and pack all orders without charge. All orders are put up in boxes or bales which are lined with heavy paper to guard against stock drying out. The trees and plants are packed in moist excelsior and straw. This is expensive, but good packing pays —pays customers, pays us. We guarantee the arrival of stock in good condition.

SHIPPING

We do not charge for packing, boxing or delivering to freight offices or express companies. We do not prepay charges, unless goods are to be delivered to a prepaid station, as all our prices and quotations are FREE ON BOARD CARS AT OUR NURSERIES. If there is no agent at your station, and shipment has to be prepaid, notify us and we will prepay charges, and bill you for same after shipment is made.

SHIPPING SEASONS

The spring shipping season usually commences here about March 1st, and continues until about May 15th. Of course, the time of shipping your stock depends on your location. We commence making Southern shipments about January 1st. Our fall season commences about October 15th, and we continue to make shipments until the ground freezes. We advise spring planting for berry plants and peach trees.

SPECIAL DISCOUNT

Eight per cent discount on all orders received on or before March 1st, or 3% discount on cash orders received after March 1st, for spring delivery, and 8% discount on all orders received before October 1st, or 3% thereafter for fall delivery. This special discount is not allowed unless all cash accompanies your order.

Enjoy the pleasure of making a personal selection from our unique
Display Gardens.

ROSES, PERENNIALS, SHRUBS, EVERGREENS
AND GENERAL NURSERY ITEMS OF INTEREST

A complete assortment to take care of every nursery need, from the simple home garden to the extensive planting of estates, or the commercial grower.

We welcome your inquiry for unlisted varieties
or information not contained in this catalog.

Choice Roses

Everywhere the rose is the best known and most popular flower—because of its fragrance, its delicacy of shape, form and coloring, its appeal to everyone. The rose deserves the name which it has received, "Queen of Flowers."

Red Radiance, a Glorious Red Rose You Will Enjoy

Hardy Perpetual Roses

Two-year No. 1—70c each, \$6.50 for 10 of one variety

American Beauty—Large, full, beautiful, upright, strong grower. Brilliant pink to red.

Black Prince—Red shading to black; very compact; fine for garden growing.

Coquette de Alps—Well-formed buds; splendid garden rose; white.

Frau Karl Druschki—Snow Queen; pure white; large and fragrant. It is marvelous in its beauty in half-open bud. A very popular rose. Summer and autumn bloomer.

General Jack—Crimson; medium to large blooms.

Mrs. John Laing—Immense flowers, full and double, borne in great profusion on long, stiff stems, and exceedingly fragrant. Clear, bright, shining pink.

Paul Neyron—Pink; the largest of all roses, often measuring five inches across the bloom. A free bloomer and hardy grower.

Ulrich Brunner—Cherry red; large, full blooms.

White American Beauty—Pure white. Profuse bloomer throughout the summer and autumn. Very fragrant.

Hybrid Tea or Everblooming Roses

THIS class of roses is noted principally for its free and everblooming characteristics, and are commonly called "Monthly Roses." They bloom early and continue to bloom throughout the summer. They are not as hardy as the Hybrid Perpetuals, but can be successfully grown in cold climates, if afforded winter protection.

Two-year No. 1—70c each, \$6.50 for 10 of one variety

SILVER COLUMBIA

A silvery pink, deepens as it opens to a glowing and enduring color. Resembles a perfect Shayer rather than the other parent, Ophelia. A large rose opening with a bud in the center, an unusual feature for a rose. Long, stiff stem nearly thornless; absolutely free from mildew, and an easy grower.

New Columbia—A lively pink in color; fragrant until late fall.

Francis Scott Key—Red shading to cerise; very large with a profusion of petals opening to a high center. Easy of culture, needs no pinching; a most acceptable addition to the list of forcing roses.

La France—Rich satiny peach, changing to deep rose. Large; the sweetest of all ever blooming roses.

Los Angeles—Flame pink. Buds long and pointed. Beautiful from the opening of the bud until the last petal drops.

Silver Columbia

Lady Hillington—Apricot-yellow, shaded to orange on the outer edge of the petals, becoming deeper and more intense toward the center of the bloom. Buds are produced on long, strong, wiry stems, well above the foliage, giving a slender and graceful effect. A strong, hearty, healthy grower.

Maman Cochet—Light pink, shaded with salmon yellow.

Mrs. Aaron Ward—Dark yellow, almost orange. A beautiful variety.

Mme. Butterfly—Harmony of bright pink, apricot and gold.

Ophelia—Brilliant salmon color, shaded with rose on outer petals, with a heart of glowing peach-pink and orange, yellow blendings, all passing finally to lighter shades. Fragrant as Richmond; faultless form in bud and flower; erect habit; stiff, long stems; free and continuous in growth and bloom; handsome, bright foliage, immune to mildew and blackspot. Possesses every requisite of a perfect forcing rose.

Pink Radiance—Pink; vigorous, upright, bushy plants bearing a continuous supply of very large, beautiful, light silvery pink to salmon-pink flowers on long stems. A good bedding variety.

Premier—Deep pink, fragrant and thornless.

President Taft—Shell pink, of a shining, intense and distinctive color; of beautiful, globular form. Perfect in stem and handsome, glossy foliage. A splendid new forcer for summer and autumn. Of Cincinnati origin, not to be confused with Prince de Bulgarie, Antoine Rivoire, Mrs. Taft or Leuchtfeuer.

Roselandia—Golden deep yellow.

Red Radiance—A deep red with great globular flowers. Blooms until frost.

Sunburst—Orange, copper and golden yellow.

Roses—Climbers and Ramblers

THE Climbers and Ramblers afford a burst of bloom and their attractive foliage is an object of beauty when not in bloom. They are most adaptable and can be trained into formal or informal shapes in the garden for hedges, trellises or pillars, or permitted to scramble over an old stump, or beautify a stone pile. These roses grow freely and will endure neglect.

Two-year No. 1 plants—60c each, \$5.50 for 10 of one variety, except Dorothy Perkins, 45c each, \$4.00 for 10.

Climbing American Beauty—Plant a vigorous grower. Color the same as the famous old American Beauty. A wonderful free bloomer.

American Pillar—One of the most gorgeous climbers. Large bloom, apple blossom pink.

Baby Rambler—Clear, brilliant ruby rose. Blooms early in June and continues until frost. We have them red, white and pink.

Columbia—Foliage deep glossy green, immune from disease and insects. Hardy in any location. Blooms with the greatest freedom the entire season. Buds and blooms of immense size often measuring six inches in diameter, of perfect formation, borne singly on long shoots. Color clear imperial pink.

Crimson Rambler—Deep crimson flowers in immense trusses. Very hardy and extensively planted.

Dorothy Perkins Rambler—In June and July produces immense trusses of delicate pink flowers. Hardest of all flowers; makes 20 to 30 foot runners in one season.

Dr. W. Van Fleet—Delicate shell pink, mild-perfumed flowers and produced abundantly.

Paul's Scarlet

Brightest and Purest Red Climbing or Pillar Rose. Makes a Brilliant Display for a Long Time

SPECIAL OFFER ON BABY RAMBLERS

6 Strong, Field Grown Plants, Well Branched, With Plenty of Good, Fibrous Roots, for **\$3.00**
No discount on this special offer

Baby Rambler
A Low Growing Rose

Flower of Fairfield—See description of Crimson Rambler. The only difference in the two varieties is that the Flower of Fairfield is ever-blooming, and for this reason it is far more valuable than any other red rambler rose we know of.

Climbing Kaiserin Augusta—Strong, rapid grower. The lovely white flowers are magnificent beyond description, buds long and pointed.

Climbing Meteor—A sport from Meteor, famous for its magnificent flowers. True climbing habit, attaining a height of 10 to 15 feet in a single season. Dark velvety crimson, the equal of any rose in cultivation.

Paul's Scarlet Climber—Vivid scarlet shaded slightly crimson, but almost a flaming scarlet, a most pleasing and striking color. Makes a brilliant display for a long time in the garden. The petals do not fade like many climbing Roses, but retain their bright color, and remains in bloom for from two to four weeks.

Thousand Beauties, Tausendschon (HM)—The buds on first opening are bright cherry-pink, changing as they develop to lighter shades, and eventually to white; are especially attractive for covering walls, fences, porches and pergolas.

Yellow Rambler—Bloom of a canary yellow; larger flowers than Crimson Rambler, but less number of blooms in each cluster. A regular beauty.

Hardy Climbing and Trailing Vines

VINES always add grace and beauty. Some are prized for the color and fragrance of their flowers, while others are valuable for covering brick or stone walls. Vines rank as the most beautiful plants for training on fences, on old trees, over porches and windows. In spring and summer their foliage is a mat of green leaves, and turns to a rich yellow gold and bronze in autumn.

A Pleasing Setting of Vines and Shrubs

To break that bleak wall—to gracefully round in the harsh corners, you can produce wonderful results by planting some of these Quality Climbing Vines. The soil in Westminster is especially adapted for "growing things."

Clematis Henryii—Grows 10 to 15 feet; large, very showy, rich white flowers. 2-year No. 1, 90c each; 10 for \$8.50.

Clematis Jackmanni—Grows 10 to 15 feet. Large, very showy, rich purple flowers. 2-year No. 1, 90c each; 10 for \$8.50.

Clematis Paniculata—Grows 20 to 24 feet. White, fragrant flowers in September; woolly seed pods. 2-year No. 1, 60c each; 10 for \$5.00.

Ampelopsis Veitchii (Boston Ivy)—Grows 30 to 50 feet. Valuable for rich, fiery autumn color; quick grower. 2-year No. 1, 50c each; 10 for \$4.00.

Birthwort or Dutchman's Pipe—Dense foliage, large, broad leaves. 2-year No. 1, 85c each; 10 for \$7.50.

Hall's Japan Honeysuckle—2-year No. 1, 50c each; 10 for \$4.00.

English Ivy—2-year No. 1, 50c each; 10 for \$4.00.

Bignonia Radicans (Trumpet Vine)—Grows 20 to 30 feet. Showy trumpet flower, scarlet and orange; blooms during July. 2-year No. 1, 50c each; 10 for \$4.00.

Celastrus Scandens (Climbing Bittersweet or Wax-work)—Most adaptable vine with orange and red berries, they retain color when cut and dried. 2 to 3 feet. 50c each; 10 for \$4.00.

Vinca Minor or Periwinkle—A blue flowering trailing evergreen. No. 1, 30c each; 10 for \$2.00.

Kudzu Vine—Very rapid climber. No. 1, 40c each; 10 for \$3.50.

Trailing Jasmine—White. No. 1, 60c each; 10 for \$5.00.

Jasmine Gardenia—Yellow. No. 1, 60c each; 10 for \$5.00.

Clematis—Paniculata

Forest Tree Seedlings

As the natural forests of the country are fast disappearing, it is well to take steps now to provide for a future supply of timber for building and the industrial arts. There are large tracts denuded of the natural forest and worthless for

anything else, which with a little care and expense would grow timber profitably.

Catalpa Speciosa—12 to 18 inch. 100 for \$5.00.

Black Locust—12 to 18 in. 100 for \$4.00.

SPECIAL DISCOUNT

Eight per cent discount on all orders received on or before March 1st, or 3% discount on cash orders received after March 1st for spring delivery, and 8% discount on all orders received before October 1st, or 3% thereafter for fall delivery. This special discount is not allowed unless all cash accompanies your order.

Decorative Hedges

THE living fence—one made of plants, attractive with green leaves, colored foliage or bright berries, may be formally trained or arched branched with effects far more pleasing than the stiff mechanical wood or metal fencing. A living hedge is permanent—once planted, only occasional pruning or shearing is required.

Red-Leaved Jap. Barberry

This new Barberry is very unusual and different from any shrub developed in many years. The foliage is a bronzy red and rich in appearance. It has the same characteristics as the Barberry Thunbergii in all respects except color. As an individual planting, worked into a hedge or planted with other shrubs, gives a striking color contrast with the other foliage. Planted in soil of a sandy nature, exposed to the sun all day, the coloring becomes lighter, approaching an orange tinge, as the season advances. Red berries are common to the type.

No. 1 Plants, \$1.00 each, \$9.00 for 10
We do not ship Barberry by Parcel Post

Barberry Thunbergii (Japan Barberry) — A dwarf grower of thick, compact habit, graceful drooping branches, stands pruning well. Its brilliant red fruit clings through most of the winter. Leaves light green changing to a beautiful copper red in the fall. Also valuable for foundation planting, facing taller shrubbery or for planting singly on the lawn. Perfectly hardy.

Barberry Thunbergii

Makes a Lovely Informal, Low-Growing Hedge. Extremely Hardy, Does Not Need Shearing

Ball-Shaped Privet

Privet

The Privet, in all its varieties, deserves attention as an ornamental plant. It is almost an evergreen, and grows freely in all soils; is compact and regular in its form and bears shearing to any extent.

Privet, California—The best of all hardy hedge plants and is easily kept at any height desired. Has no thorns, does not sucker from the roots and is not objectionable in any way. A universal favorite.

Size	10	100	1000
2 to 3 ft. . . .	\$1.00	\$ 6.00	\$ 50.00

6 to 12 in.50	3.00	20.00

Decorative Hedges—Continued

Privet (Amoor River North)—A distinct type which has been hardy in the North. Foliage and habit of growth almost identical with the variety grown in the South. Flowers white, fruit black.

Size	Each	10
18 to 24 in.....	\$2.00	\$14.00
12 to 18 in.....	1.75	12.00
8 to 12 in.....	1.25	10.00

GLOBE SHAPED PRIVET

Our stock of Globe Shaped Privet is compact and properly sheared to perfect balls. We ship this stock balled and burlapped, hence can be dug and transplanted at any time during the year. Handle the ball of earth same as an evergreen when planting and, as instructed, do not remove the burlap at all, do not even cut the tying cord. The Globe Shaped Privet balls are very appropriate for planting with evergreens. Its glossy black-green foliage makes a wonderful contrast when planted in groups of evergreens. Very popular at seashores where evergreens of many varieties fail to thrive. Thousands of both the standard and Globe Shaped Privet can be seen at Atlantic City, N. J., where they retain their foliage all winter long.

12 x 12 in.....	\$1.00	\$ 8.00
18 x 18 in.....	1.50	12.50
22 x 22 in.....	2.00	15.00

Ibota—One of the hardy privets that thrives in shady locations. Grows to 5 or 6 feet untrimmed. Oval leaves, dark, grayish green, turning wine color in fall. Has fragrant flowers in June and black berries in fall and winter.

Two Years Transplanted—

Size	Each	10	100
18 to 24 in.....	\$0.25	\$2.00	\$15.00
12 to 18 in.....	.20	1.75	12.50

Regel's Privet—Considered the finest of the Privets for shrubbery borders. Clear cut, fine foliage, and a bush of refined habit. The low-spreading, horizontal branches also make it a very fine plant for low hedges. Plant deeply in a hedge planting, giving the plants a severe trimming, and they will make a bushier, more compact hedge. Graceful and distinctive—they are more in demand every year.

Size	Each	10	100
18 to 24 in.....	\$0.40	\$3.75	\$30.00

We have over a half million Privet—fine bushy plants, and these low prices should interest you. Add a half cent per plant if by parcel post.

SPECIAL OFFER No. 50

 Fifty or more at one hundred rates.
 Four hundred or more at one thousand rates.

TERMS

Cash with order, except in large orders, where satisfactory reference is given.

California Privet

It is Not In Looks Alone That a Good Hedge Pays. It is Also a Protection and Gives Privacy

Ornamental and Shade Trees

THE proper utilization of ornamental shrubs and trees adds mightily to the attractiveness of the home surroundings. "It's not a home until it's planted" is truly portrayed in the slogan of the American Association of Nurserymen. They are effective ornamentally from the time they are set out, and soon their spreading growth will create a sheltered environment for the home that will be a pride and joy with the passing years.

Shade trees make the difference and the nominal outlay for planting is returned a hundred fold in greater property value and the enjoyment of pleasant surroundings.

American Beech (*Fagus ferruginea*)—Handsome, symmetrical tree; smooth gray bark. Excellent for screen and lawn, or for specimen. For high hedges when clipped. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.50 each.

American Elm (*Ulmus Americana*)—One of the noblest and most picturesque of American trees. Easily distinguished by its wide arching top, vase-like form and pendulous branches. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.50; 8 to 10 ft., \$2.00 each.

American and European Linden (*Americana and Europaea Tilia*)—Stately, rapid growing tree, with large, showy leaves and fragrant flowers. Very desirable on account of their fine, luxuriant foliage. Valuable for their beautiful white wood. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.25; 8 to 10 ft., \$2.00 each.

American Mt. Ash (*Pyrus Sorbus Americana*)—A favorite, erect growing lawn tree of medium size, producing white flowers early in the spring, fol-

lowed by clusters of bright red berries which remain on the tree through the winter months. 5 to 6 ft., \$1.25; 6 to 8 ft., \$1.50 each.

Ash Leaf Maple (Box Elder, *Acer negundo*)—A fine, rapid growing variety with handsome light green foliage and spreading head; very hardy, desirable for street planting. 7 to 8 ft., \$1.25 each.

Carolina Poplar (*Populus monilifera*)—Rapid grower. Large leaves, glossy, deep green. Valuable where shade is desired quickly. Useful as a screen or as windbreak. 5 to 6 ft., 50c; 6 to 8 ft., 75c; 8 to 10 ft., \$1.00; 10 to 12 ft., \$1.50 each.

Catalpa Speciosa—A highly desirable tropical appearing tree with large, fragrant, purple and white flowers. Flowers abundantly in June. 1½ to 2 in. caliper, 8 to 10 ft., \$2.50 each.

Dogwood (Red Osier, *Cornus stolonifera*)—Red bark, white flowers and berries. Excellent for water-side planting. 2 to 3 ft., 65c; 3 to 4 ft., 75c each.

European Mt. Ash (*Pyrus Sorbus Aucuparia*)—Fine, hardy tree, covered from July till winter with clusters of bright red berries. Very ornamental. 6 to 8 ft., \$3.25; 8 to 10 ft., \$3.75 each.

European White Birch (*Fagus sylvatica*)—Its tall, slender yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree. 6 to 7 ft., \$1.50 each.

Gray Dogwood (*Cornus paniculata*)—Upright, tall shrub, flowers and fruit white on red stems. 2 to 3 ft., 75c; 3 to 4 ft., \$1.00 each.

Horse Chestnut (*Aesculus*)—A well known variety. Its magnificent spikes of white flowers make it very attractive. Fine for street planting. 6 to 8 ft., \$3.00 each.

Lombardy Poplar (*Populus fastigiata* or *dilatata*)—Well known for its erect, rapid growth and spike-like form; used for screens and formal plantings. 5 to 6 ft., 50c; 6 to 8 ft., 65c; 8 to 10 ft., \$1.00; 10 to 12 ft., \$1.50; 12 to 16 ft., \$2.25; 16 to 20 feet, \$3.00 each.

A Birch Tree. Note the Fine Proportions and Dense Foliage

SPECIAL DISCOUNT

Eight per cent discount on all orders received on or before March 1st, or 3% discount on cash orders received after March 1st, for spring delivery, and 8% discount on all orders received before October 1st, or 3% thereafter for fall delivery. This special discount is not allowed unless all cash accompanies your order.

Ornamental and Shade Trees—Continued

Maple (Japan Blood Leaf)—Very scarce. Small, compact; foliage blood red. 1½ ft., \$4.50 each.

Norway Maple (*platanoides* Acer)—Most beautiful shade tree. Perfect in form; free from disease. Sturdy, compact and vigorous grower, forming a rounded head of stout branches of clean, broad, deep green foliage. Perfectly hardy. Excellent for street planting or for shade on lawn. 5 to 6 ft., \$1.25; 6 to 8 ft., \$2.00; 8 to 10 ft., \$3.50; 1½ in. caliper, 10 to 12 ft., \$5.00; 2½ in. caliper, 12 to 16 ft., \$6.50 each.

Oriental Plane (*Platanus orientalis*) — Very popular for street growing. A rapid, upright, clean grower and long lived; beautiful, dense foliage. It is not affected by the air of cities or by insects. The bark peels off the trunk and branches in autumn, leaving the whole tree of a creamy white color all through the winter. 4 to 5 ft., \$1.00; 6 to 7 ft., \$1.75; 8 to 10 ft., \$2.25 each.

Plum (Purple Leaf, *Prunus Pissardi*) — Finest purple-leaved small tree. Young branches are very dark purple; leaves when young are lustrous crimson changing to dark purple, and retain this beautiful tint until they drop. 4 ft., \$1.25 each.

Red Bud (*Cercis Canadensis*) — Profuse, rich purple flowers in early spring. Effective with evergreens. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.25; 8 to 10 ft., \$2.25 each.

Schwedlerli (Scarlet Maple, *rubrum* Acer) — Strikingly vivid crimson fall foliage; tall, spreading; prefers moist positions; red flowers in early spring. 6 ft., \$4.00 each.

Silver Maple (*dasycarpum* or *eriocarpum* Acer) Beautiful ornamental tree, in great demand for street, lawn and park planting. Easy to transplant; fast grower, thrives equally well in drained or low, swampy locations. 5 to 6 ft., 75c; 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.30; 10 to 12 ft., \$2.75 each.

Sugar Maple (*saccharinum* Acer)—A magnificent, well-proportioned and long-lived tree, producing maple sugar. Its stately form and vigorous growth make it a desirable ornamental tree. 6 to 8 ft., \$1.40; 8 to 10 ft., \$2.00 each.

Tulip Poplar (*Liriodendron tulipifera*)—Large, rapidly spreading tree; fragrant yellow flowers. 10 to 12 ft., \$2.75; 2 to 3 in. caliper, \$5.00 each.

White Flowering Dogwood (*Cornus florida*)—One of the most valuable dwarf ornamental trees. Has beautiful double white flowers 3 to 3½ inches in diameter about the middle of May, before the leaves appear, making it a very conspicuous tree. 3 to 4 ft., 65c; 4 to 5 ft., 85c; 5 to 6 ft., \$1.25; 8 to 10 ft., \$2.75 each.

Prices on other sorts and sizes given on application.

Rapid Growing Oriental Plane Trees are Excellent for Street and Lawn Planting

Weeping Deciduous Trees

WEEPING Trees are divided into two classes, namely, those with grafted tops or heads which grow in umbrella-like form like the Weeping Mulberry, and excellently adapted for planting in small yards and gardens, and those with tall growing trunks having long, slender, drooping branches that are adapted for larger places where they can have sufficient room for development.

Birch, Cut-Leaved Weeping (*Betula var. pendula Laciniata*)—Deservedly one of the most popular of all weeping trees. A strong, upright grower with graceful drooping branches, silvery white bark and delicately cut foliage. 4 to 6 ft., \$4.00 each.

European Ash (*Fraxinus Excelsior*)—A fine, hardy tree, the head is dense and regular, covered in June with a mass of white flowers, later with yellow berries, which turn into bright scarlet and last long into winter. Very beautiful. 2-year heads, \$1.75; 1-year heads, \$1.50 each.

Tea's Weeping Mulberry (*Morus alba pendula*)—A graceful, beautiful weeping tree, forming a perfect umbrella-shaped head, with long, slender, willowy branches drooping to the ground, gracefully swaying in the wind. Foliage lobed and of a delightfully fresh, glossy green. A rapid grower and exceedingly hardy. It bears edible berries in abundance—black and very sweet. 2-year heads, \$3.75; 1-year heads, \$2.75 each.

Catalpa Bungei (*Umbrella Catalpa*)—Grafted on stems 6 to 8 feet high, it makes a symmetrical, umbrella-shaped head without pruning. The leaves are large, heart-shaped, look like shingles on a roof. Hardy and succeeds everywhere. Very unique and desirable. 5 to 6 ft., select, \$2.00 each, 10 for \$17.50; 6 to 8 ft., \$2.50 each, 10 for \$22.00.

Wisconsin Weeping Willow (*Salix babylonica dolorosa*)—A common, well known weeping variety. Forms a large, round-headed, graceful tree. Requires plenty of room and is highly desirable

where space is available. 5 to 7 ft., \$1.00 each; 10 for \$8.50.

Catalpa Bungei
Recommended for Small Lawns, Formal Gardens, etc.

Nut Trees

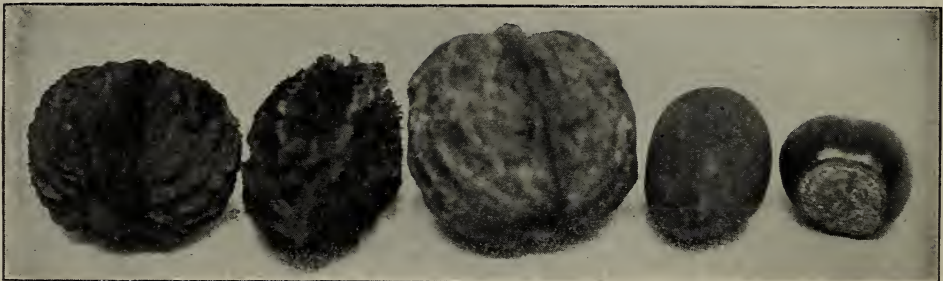

Butternut—A fine, native tree producing a large, longish nut which is prized for its sweet, oily, nutritious kernel. 3 to 4 ft., 75c; 4 to 5 ft., \$1.00; 5 to 6 ft., \$1.25 each.

English Walnut—One of the largest, most delicious meaty nuts, always in demand at a good price. Can generally be grown in any climate where peaches are grown. 3 to 4 ft., \$1.75; 2 to 3 ft., \$1.50 each.

Japan Walnut—Perfectly hardy; a rapid grower, handsome leaves, bears young and abundantly.

One of the finest ornamental trees. Nuts produced in clusters, the shell a little thicker than the English Walnut. Worthy of extensive planting. 12 to 18 in., 40c; 2 to 3 ft., 65c; 3 to 4 ft., 75c each.

Thin-Shelled Pecan—Very thin shell, can be easily cracked in the hand; kernel plump and sweet and can be removed whole; this is the thinnest and easiest to crack of any we have seen. Tree vigorous grower, very prolific. Found a chance seedling, and on account of its cracking qualities, thus the name. **Stuart**, 3 to 4 ft., \$1.25 each.

Black Walnut

Butternut

English Walnut

Pecan

English Filbert

There is real joy in the possession of good Evergreens. For foundation planting they reign supreme over all landscape material. Color, height, form and adaptability with the all year around colorful foliage.

Evergreens

STRIKINGLY ornamental in either its tall, stately groups or in the dwarf varieties for lawn decoration or landscape work. The smaller varieties when used for foundation planting seem to blend the house and lawn into a pleasing suggestion of permanency and well-being. Tastefully arranged they unquestionably enhance realty values.

The picturesque leaf masses are enjoyable in the summertime for their harmonizing color effects ranging from lightest to deepest greens, soft toned grays and blues. Are doubly desirable in the wintertime for the touch of life and color they lend to the bleak December landscape.

ARBOR VITAE—Thuya

American (Occidentalis)—A native tree of extreme beauty. Known as the white cedar; especially valuable for hedges.

18 to 24 in., each	\$1.40
24 to 30 in., each	2.00
30 to 36 in., each	2.50
3 to 4 ft., each	3.00

Globosa (Globe-Headed Arbor Vitae)—Grows in low, thick globe form; very desirable.

15 to 18 in., each	\$2.00
18 to 24 in., each	3.00

Hoveyi (Hovey's Golden Arbor Vitae)—Of dwarf habit, globular outline and golden green foliage; fine and hardy.

12 to 15 in., each	\$2.00
18 to 24 in., each	3.00

Pyramidal—Grows upright with compact habit. Very desirable.

12 to 18 in., each	\$1.25
18 to 24 in., each	2.00
2 to 3 ft., each	2.75
3 to 4 ft., each	3.75

Tom Thumb, Silver (occidentalis Ellwangeriana)—Very dwarf and of slow growth; of compact, symmetrical habit; valuable where low-growing forms are needed. Forms a low, broad pyramid.

12 to 18 in., each	\$1.75
18 to 24 in., each	2.75

BIOTA (Chinese Arbor Vitae)

Biota Aurea Nana, 12 to 15 in.	
Thuya orientalis aurea)	\$2.50 each
Biota Aurea Nana, 15 to 18 in.	3.00 each
Biota Aurea Nana, 18 to 20 in.	3.50 each
Biota Aurea Nana, 20 to 24 in.	4.00 each
Biota Compacta, 12 to 18 in. (Thuya orientalis compacta)	1.50 each
Biota Pyramidalis, 18 to 24 in. (Thuya orientalis pyramidalis)	2.00 each
Biota Pyramidalis, 24 to 30 in. (Thuya orientalis pyramidalis)	2.50 each
Biota Pyramidalis, 30 to 36 in. (Thuya orientalis pyramidalis)	2.75 each

Canadian Hemlock (Tsuga Canadensis)—Good for a lawn tree, also makes a desirable and handsome hedge. Will stand much pruning. Has beautiful, drooping branches and delicate dark foliage. Very hardy, and endures well in a shady place.

12 to 18 in., each	\$1.50
18 to 24 in., each	2.25
2 to 3 ft., each	3.00

Colorado Spruce (Picea pungens)—One of the hardiest and most beautiful of all the Spruces; in form and habit similar to the White Spruce; foliage of a light blue or sage color.

12 to 18 in., each	\$3.25
18 to 24 in., each	5.00

Evergreens—Continued

Colorado Spruce

One of the Most Popular of Evergreens

Colorado Spruce

Dwarf Boxwood *Sempervirens Suffruticosa* (*Buxus nana*)—The best known plant for low hedges in the formal garden. 10 to 12 in., \$1.50; 12 to 18 in., \$2.50; 18 to 24 in., \$3.75 each.

Irish Juniper (*Juniperus hibernica*)—A distinct and beautiful variety, forming a neat tapering column of deep green. Much used in cemetery plantings. 18 to 24 in., \$2.00; 2 to 3 ft., \$2.75 each.

Pinus Mughus (Dwarf Mughu Pine)—Of low, dense, spreading growth with very dark green foliage. Very hardy and suitable for covering slopes. 8 to 12 in., \$1.75; 12 to 15 in., \$2.50 each.

Norway Spruce (*Picea excelsa*)—Best spruce for screens and hedges. Dark green; rapid growth. 12 to 18 in., \$1.00; 18 to 24 in., \$1.50; 2 to 3 ft., \$2.50; 3 to 4 ft., \$3.00 each.

Pfitzer's Juniper (*Juniperus Pfitzeriana*)—Of the spreading type, this is perhaps the most popular. Foliage a grayish green, slightly drooping and branches are horizontally spreading. 12 to 18 in., \$2.00; 18 to 24 in., \$3.00; 2 to 3 ft., \$4.00 each.

Retinospora Squarrosa Veitchii, Silver (Japanese Cypress)—Soft, feathery foliage, silvery or steel gray in color. 12 to 18 in., \$1.85; 18 to 24 in., \$2.75; 2 to 3 ft., \$3.50 each.

Retinospora Plumosa (Japanese Cypress)—Useful for hedges and formal work. A tall, pyramidal shape. 12 to 18 in., \$1.75; 18 to 24 in., \$2.25; 2 to 3 ft., \$3.00 each.

Colorado Green Spruce (*Picea pungens*)—Symmetrical. Foliage light green. Very hardy. May be used as a specimen or windbreak. 12 to 18 in., \$2.00; 18 to 24 in., \$3.00; 2 ft., \$5.00 each.

Dwarf Boxwood *Sempervirens Salicifolia* (*Buxus nana*)—Narrow leaves of warm green. Can be clipped for formal use if required. 10 to 12 in., \$1.50; 12 to 18 in., \$2.00; 18 to 24 in., \$3.00 each.

Evergreens—Continued

**A Typical Westminster Nursery Evergreen.
Hardy, Vigorous, Something Ready to
Take Hold and Thrive in Any Soil**

Retinospora Plumosa aurea (Golden Japanese Cypress)—Very hardy. The rich, golden growth holds through the summer. For specimens or hedges. 12 to 18 in., \$2.00; 18 to 24 in., \$3.00 each.

Retinospora Filifera (Japanese Cypress) — Medium height. Foliage deep green. For formal use. 18 to 24 in., \$2.00; 2 to 3 ft., \$2.50; 3 to 4 ft., \$3.00 each.

Retinospora pisifera (Japanese Cypress)—Tall, pyramidal shape. Broad, flat foliage of deep, glossy green. 2 to 3 ft., \$3.00 each.

Retinospora pisifera aurea (Golden Japanese Cypress)—Like type in form and habit. 18 to 24 in., \$2.50; 2 to 3 ft., \$3.00 each.

Savin Juniper (*Juniperus Sabina*)—Low spreading with dark green foliage. Very hardy. 12 to 18 in., \$2.50; 18 to 24 in., \$3.00 each.

Standard Boxwood *Arborescens* (Tree Box, *Buxus sempervirens*)—Loose, graceful habit of growth. Tree attains 20 feet. For evergreen plantings or specimens. 10 to 12 in., \$1.25; 12 to 18 in., \$1.75; 18 to 24 in., \$2.25 each.

Juniperus communis depressa plumosa (Purple Prostrate Juniper). An unusual rare Evergreen of individual beauty

Silvery green in the spring, turning to a purple hue in the fall. Low growing, with a spreading habit, adapting itself to many uses. Very hardy, grows under all conditions that other evergreens find unfavorable. Recommended for rock gardens, or filling in the base of taller growing evergreens. It is beautiful as an individual shrub or planted

in contrast with other evergreens. The prostrate branches seldom exceed 18 inches from the ground. Enjoy the pleasure of a few of these rare, colorful specimens in your home grounds.

12 to 15 inch spread	\$2.50 each
15 to 18 inch spread	3.00 each
18 to 24 inch spread	4.00 each

SPECIAL OFFER OF EVERGREENS

Six Popular Varieties for \$10.00, Worth \$12.65

This collection embraces six of the most popular Evergreens for general use about the home grounds, and of popular size.

1 <i>Thuja Occidentalis</i> <i>Pyramidalis</i> , 18 to 24 in.	\$2.00
1 <i>Juniperus Hibernica</i> (Irish Juniper) 24 in.	2.00
1 <i>Retinospora Squarrosa</i> (Moss <i>Retinospora</i>) 18 in.	2.75
1 <i>Thuja Occidentalis Globosa</i> (Globe Arbor Vitae) 12 in.	2.00
1 <i>Retinospora Plumosa</i> (Plume Cypress) 12 to 15 in.	2.00
1 <i>Thuja Occidentalis</i> (<i>American Arbor Vitae</i>) 18 to 24 in.	1.50

\$10.00
Worth \$12.25

Perhaps no other Evergreens have as wide a range of usefulness as those included in this collection. They may be grouped about the foundation of the house or entrance planting, or as clusters in the corners of the lawn to provide a touch of color and cheer in the winter.

These Evergreens are carefully dug, balled and burlapped and packed at our nursery, and the above prices are net cash with order, F. O. B. Westminster, Md.

Offer No. 130 Double the quantity for \$18.00

Small Sized Evergreens

Our small sized Evergreens are packed with the same care and in the same manner as our larger specimens, insuring their safe arrival at destination

Retinospora Squarrosa Veitchii (Moss Retinospora)—8 to 10 in. 10, \$6.00; 50, \$25.00; 100, \$45.00.

Retinospora Plumosa Aurea (Golden Plume Cypress)—8 to 10 in. 10, \$7.00; 50, \$30.00; 100, \$50.00.

The above prices are net cash with order, nicely packed, small ball and burlapped, F. O. B. cars Westminster, Md., for express or freight shipments.

For those who desire to plant Evergreens in small sizes and enjoy watching them grow, at the same time effecting a considerable saving, we list below a number of the more popular varieties that have extra strong roots, being twice transplanted.

Thuja Occidentalis Globosa (Globe Arbor Vitae)—8 to 10 in. 10, \$6.00; 50, \$25.00; 100, \$45.00.

Thuja Occidentalis Pyramidalis (Pyramidalis Arbor Vitae)—8 to 10 in. 10, \$7.00; 50, \$30.00; 100, \$50.00.

Here Evergreens add charm and dignity. The sharp angles of the entrance are softened and made pleasing, and house and lawn harmoniously merged together

Rhododendrons

Rhododendrons are the most handsome of all broad leaved evergreens. Select partially shaded locations, preferably one where the plants will be protected from severe winds, buildings or evergreens. Keep well mulched winter and summer with leaf mould or decayed sod. Do not dig about the plants as they are surface rooted and digging will destroy the feeding roots. Water freely.

Rhododendron Maximum (Rosebay Rhododendron)—The largest of all native Rhododendrons, with very large, heavy foliage; waxy white flowers; blooms in July. 1½ feet. \$2.75 each.

Larger size Rhododendrons or specimen plants quoted on application.

Rhododendrons

Attractive at all seasons, either massed, in groups, for foundation plantings or as single specimens, and when in bloom are truly a beautiful sight

SPECIAL DISCOUNT

Eight per cent discount on all orders received on or before March 1st, or 3% discount on cash orders received after March 1st, for spring delivery, and 8% discount on all orders received before October 1st, or 3% thereafter for fall delivery. This special discount is not allowed unless all cash accompanies your order.

Deciduous Shrubs for Home Planting

ALONG the roadway, along the pathway, around the house foundation, as borders, for massing—one might mention a large number of special places where deciduous shrubs will supply a well-defined need in a planting scheme. Wherever the place may be, however, a wise selection from the list which follows will make possible flowering shrubs around the home or scattered over the estate. Beautiful combinations of handsome varicolored leaves, berries and blossoms that will give continuous bloom from spring until fall is possible from the selection of shrubs featured by the Westminster Nursery.

Althea (Rose of Sharon)

Amorpha Fruticosa (False Indigo)—Grows 8 to 10 feet. Deep purple flowers in June; splendid habit.

12 to 18 in.	Each, \$0.30	Per 10, \$2.50
18 to 24 in.	Each, .40	Per 10, 3.50
2 to 3 ft.	Each, .50	Per 10, 4.50

Abelia Grandiflora—Glossy abelia, grows 3 to 4 feet; evergreen; choice small shrub, with white tinted flowers, very fragrant, produced throughout the entire summer months.

12 to 18 in.	Each, \$0.85	Per 10, \$ 7.50
18 to 24 in.	Each, 1.25	Per 10, 10.00
2 to 3 ft.	Each, 1.75	Per 10, 15.00

African Tamarix—Grows 12 to 14 feet. Pink flowers April and May; has feathery, gray-green foliage. Very effective near water. Thrives at seashore.

12 to 18 in.	Each, \$0.40	Per 10, \$3.00
18 to 24 in.	Each, .50	Per 10, 4.00
2 to 3 ft.	Each, .60	Per 10, 5.00

Althea, or Rose of Sharon—The Altheas are fine, free-growing, flowering shrubs and are easy to cultivate. Very desirable on account of blooming in August and September, when scarcely any other tree or shrub is in blossom. We have the following varieties.

- Althea Amplissima—Double, rose red.
- Althea (Double de Feu)—Double red.
- Althea (Jean de Arc)—Double white.
- Althea (Paeonia Flore)—White, with cherry red center.

18 to 24 in.	Each, \$0.40	Per 10, \$3.50
2 to 3 ft.	Each, .60	Per 10, 5.00

Aronia Melanocarpa (Black Choke Berry) — Grows 8 to 10 feet. Delicate white flowers in May, and black berries persist until late in the season.

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.50

An Effective Porch Planting of Spirea and Hydrangea

SPECIAL DISCOUNT

Eight per cent discount on all orders received on or before March 1st, or 3% discount on cash orders received after March 1st, for spring delivery, and 8% discount on all orders received before October 1st, or 3% thereafter for fall delivery. This special discount is not allowed unless all cash accompanies your order.

Deciduous Shrubs—Continued

Bechtel's Crab

Bechtel's Double-Flowering Crab—One of the most beautiful varieties of flowering crabs. Medium size, with large, double, fragrant flowers of a delicate pink in early spring. From a distance they have the appearance of roses.

2 to 3 ft. Each, \$1.00
3 to 4 ft. Each, 1.25

Buddleia var. Magnifica (Butterfly Bush or Summer Lilac)—This beautiful shrub matures rapidly and produces beautiful lilac-colored flowers in profusion. Blossoms the entire summer; splendid for cutting. Should be cut back to ground every spring.

18 to 24 in. Each, \$0.40 Per 10, \$3.00
2 to 3 ft. Each, .50 Per 10, 4.00
3 to 4 ft. Each, .60 Per 10, 5.00

Calycanthus (Sweet Shrub)—Very desirable; the wood is fragrant, foliage rich, flowers of a rare chocolate color, deliciously fragrant; blossoms in June and at intervals thereafter.

12 to 18 in. Each, \$0.60 Per 10, \$5.00
18 to 24 in. Each, .75 Per 10, 6.00

Celtis Occidentalis (Northern Hackberry)—Grows 50 to 60 feet. Similar foliage and habit as the elm.

12 to 18 in. Each, \$0.30 Per 10, \$2.50
18 to 24 in. Each, .40 Per 10, 3.00

Cladrastis Lutea (Yellow Wood)—A striking tree with long panicles; fragrant white flowers in June.

12 to 18 in. Each, \$0.30 Per 10, \$2.50
18 to 24 in. Each, .40 Per 10, 3.00

Deutzia Gracilis (Slender Deutzia)—Grows 3 feet tall. Profuse bloomer, pure white; blooms in May. Useful for facing.

18 to 24 in. Each, \$0.40 Per 10, \$3.50
2 to 3 ft. Each, .50 Per 10, 4.50

Deutzia Pride of Rochester (Flowered Deutzia)—Very large, double, white flowers tinged with pink in May and June. It excels in size of flower, profuse bloom and vigorous growth. The best of the Deutzias.

18 to 24 in. Each, \$0.40 Per 10, \$3.50
2 to 3 ft. Each, .50 Per 10, 4.50
3 to 4 ft. Each, .60 Per 10, 5.50

Forsythia Fortunei—Grows 7 to 8 feet; good habit, arching branches and vigorous, upright grower. Yellow or golden flower, blooming April and May.

18 to 24 in. Each, \$0.40 Per 10, \$3.50
2 to 3 ft. Each, .50 Per 10, 4.00
3 to 4 ft. Each, .60 Per 10, 5.00

Forsythia Intermedia (Border Golden Bell)—Grows 6 to 8 feet. Bright yellow flowers in April before the leaves unfold. Profuse and beautiful in bloom. Yellow or golden bloom April and May.

18 to 24 in. Each, \$0.40 Per 10, \$3.50
2 to 3 ft. Each, .50 Per 10, 4.50

Crepe Myrtle (Purple, Pink and White)—Spring delivery only.

18 to 24 in. Each, \$0.75 Per 10, \$6.50

Cydonia Japonica (Japanese Flowering Quince)—Very ornamental in early spring, as its bright, scarlet flowers completely cover the branches before the leaves are formed. The fruits which follow later are quince-shaped and quite fragrant. Has stout branches with fine thorns. Makes a good defensive hedge. Blooms in early May.

18 to 24 in. Each, \$0.60 Per 10, \$5.00

Deutzia Candidissima (Snow Flake Deutzia)—Pure white flowers, very double, which are so perfect in shape they are frequently used as cut flowers.

12 to 18 in. Each, \$0.40 Per 10, \$3.50
18 to 24 in. Each, .50 Per 10, 4.00

Deutzia Crenata (Double Pink Deutzia)—Grows 6 to 8 feet. Pink, slightly fragrant flowers in June.

18 to 24 in. Each, \$0.30 Per 10, \$2.50
2 to 3 ft. Each, .40 Per 10, 3.50
3 to 4 ft. Each, .60 Per 10, 5.50

Deciduous Shrubs—Continued

Deutzia

Forsythia Viridissima (Green Stem Forsythia)—Grows 7 to 8 feet. Vigorous grower; has green bark and thick, dark green leaves. This is the last of the Forsythias to flower. Yellow or golden bloom April and May.

18 to 24 in.	Each, \$0.50	Per 10, \$4.50
2 to 3 ft.	Each, .60	Per 10, 5.50
3 to 4 ft.	Each, .70	Per 10, 6.50

Hammelis Virginiana—Grows 10 to 12 feet. Yellow ribbon-like flowers in October and November. Bushy habit, good foliage; succeeds best in moist, half-shady places.

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.50
2 to 3 ft.	Each, .60	Per 10, 5.50

Honeysuckle, Red Tartarian (Tatarica Rosea)—The best known of all the Bush Honeysuckles. Grows to a height of 8 to 10 feet, with upright, somewhat spreading branches and bright green foliage. The flowers are borne freely in May and June, are of bright pink color, followed by showy red berries, which ripen in mid-summer, and cling to the bush for several weeks.

Honeysuckle, White Tartarian (Tatarica Alba)—About the same as the above except that the flowers are white.

Two above varieties of upright Honeysuckle:

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.50
2 to 3 ft.	Each, .60	Per 10, 5.50

Bella Candida (White Bell Honeysuckle)—Grows 8 to 9 feet; vigorous.

Morrowii—Grows 7 to 8 feet. Spreading habits. White flowers during May and June. Good foliage.

Prices on two climbing vines, above, as follows:

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.00
2 to 3 ft.	Each, .65	Per 10, 5.00

Hydrangea Arborescens (Hills of Snow or Ever-blooming)—Becomes a good-sized shrub to which the name Hills of Snow may well be applied—a profusion of large, snow-white flowers turning green instead of bronze as do other hydrangeas. Easily grown in ordinary garden soil and thrives in partial shade, but does best in full sun. It blooms from June till September.

12 to 18 in.	Each, \$0.50	Per 10, \$4.00
18 to 24 in.	Each, .60	Per 10, 5.00
2 to 3 ft.	Each, .70	Per 10, 6.00

Hydrangea Madame Mouliere — White pink French.

12 to 15 in.	Each, \$1.00	Per 10, \$9.00
-------------------	--------------	----------------

Hydrangea Paniculata Grandiflora—A good variety to follow Hills of Snow, blooming profusely in August and September when few other shrubs are in bloom. It produces the largest flower heads of any of the hardy shrubs. Allowed to grow naturally, it assumes stately proportions, reaching a height of seven feet, and during the hot months is covered with its great pyramidal panicles, white on opening, assuming rose and bronze tints on the sunny side and drooping gracefully of their own weight. Valuable for winter decoration if flowers are allowed to dry on bush.

12 to 18 in.	Each, \$0.50	Per 10, \$4.00
18 to 24 in.	Each, .60	Per 10, 5.00
2 to 3 ft.	Each, .70	Per 10, 6.00

Tree Hydrangea—Standard grower.

2 to 3 ft.	Each, \$1.25	Per 10, \$10.00
3 to 4 ft.	Each, 1.50	Per 10, 12.50

Incissa Vitex—

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.00
2 to 3 ft.	Each, .60	Per 10, 5.00

Hypericum (St. Johnswort)—Grows 3 to 4 feet. Yellow flowers during July and August.

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.50

Red Tartarian Honeysuckle

Deciduous Shrubs—Continued

Kerria Japonica (Japan Corchorus)—A handsome, green-leaved shrub, growing 4 to 5 feet. Graceful, slender, drooping branches, painted with a wealth of rich, dark yellow flowers in June, and to some extent all summer.

18 to 24 in.	Each, \$0.50	Per 10, \$4.00
2 to 3 ft.	Each, .60	Per 10, 5.50
3 to 4 ft.	Each, .75	Per 10, 6.50

Lindera Benzoin (Spice Bush)

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.50

Mallow Marvels.

18 to 24 in.	Each, \$0.50	Per 10, \$4.50
2 to 3 ft.	Each, .60	Per 10, 5.50
3 to 4 ft.	Each, .70	Per 10, 6.50

Rhamnus (Carolina Buckthorn)—Grows 9 to 10 feet. Dark green leaves; black berries; valuable as a background shrub.

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.50
2 to 3 ft.	Each, .60	Per 10, 5.50

Rhus Glabra (Smooth Sumac)—Grows 10 to 12 feet. Crimson fruits in bunches; rich autumn coloring. Thrives in poor soil.

12 to 18 in.	Each, \$0.40	Per 10, \$3.50
18 to 24 in.	Each, .50	Per 10, 4.50
2 to 3 ft.	Each, .60	Per 10, 5.50

Rhus Typhina (Staghorn Sumac)—Grows 15 to 18 feet; picturesque habit; brilliant autumn effect.

12 to 18 in.	Each, \$0.30	Per 10, \$2.50
18 to 24 in.	Each, .40	Per 10, 3.50
2 to 3 ft.	Each, .50	Per 10, 4.50

Spirea Van Houttei—The popular flowering shrub of the American home

Snowberry Vulgaris (Red Snowberry or Coral Berry)—A low growing, graceful shrub. Its fruits are red, and the small red berries cluster in thick ropes along the weighted-down stems.

12 to 18 in.	Each, \$0.30	Per 10, \$2.50
18 to 24 in.	Each, .40	Per 10, 3.50
2 to 3 ft.	Each, .50	Per 10, 4.40

Snowberry, White (E)—Bushy form, small pink flowers in summer; quantities of large, white, waxy, roundish berries in autumn that remain on the plant through part of the winter. Extra large.

18 to 24 in.	Each, \$0.40	Per 10, \$3.50
2 to 3 ft.	Each, .50	Per 10, 4.50

Spirea Anthony Waterer—A dwarf, compact-growing shrub. Blossoms in broad, flat heads of beautiful deep red color. A perpetual bloomer.

12 to 18 in.	Each, \$0.50	Per 10, \$4.00
18 to 24 in.	Each, .60	Per 10, 5.00

Spirea Billardi Alba—Grows 5 to 6 feet; white, fluffy flower spikes; July to October; valuable for dry places.

2 to 3 ft.	Each, \$0.50	Per 10, \$4.00
3 to 4 ft.	Each, .65	Per 10, 5.50

Spirea Colossa Rosea—Very similar to Spirea Anthony Waterer, but more upright and rapid in growth. Light pink flowers.

12 to 18 in.	Each, \$0.40	Per 10, \$3.00
18 to 24 in.	Each, .50	Per 10, 4.00

Spirea Inca—Blue.

12 to 18 in.	Each, \$0.50	Per 10, \$4.00
18 to 24 in.	Each, .60	Per 10, 5.00

Spirea Opulifolia Aurea (Golden Ninebark)—Grows 9 to 10 feet; golden leaved variety; white flowers in early June.

18 to 24 in.	Each, \$0.50	Per 10, \$4.00

2 to 3 ft. Each, .75 Per 10, 6.50

Lilacs

The Lilac is a well-known, very hardy shrub of easiest culture. The flowers grow in large panicles and are both gay and deliciously fragrant. The lilac appears to best advantage when massed in groups. It is easily transplanted in either fall or spring. Moderately rich, moist soil suits it best. The dead flowers should be removed

Common Snowball—*Viburnum opulus sterile*

Magnolia Fraseri—4 to 6 feet, \$2.50 each.

Paul's Scarlet Thorn — Highly ornamental foliage and flowers. Double, bright carmine-red blossoms. Superior to any other variety of its color. 3 to 5 ft., \$1.50 each.

Prunus Triloba (Double Pink Flg. Plum)—Native of China. Flowers double, of a delicate pink, upwards of an inch in diameter, thickly set on long, slender branches; flowers in May. 3 to 4 ft., \$1.25 each.

when the blooming season is over, as they give an untidy appearance; should not be pruned in winter or spring, as it destroys the flowers.

Varieties and colors of Lilacs as follows:

14 Popular Flowering Shrubs for \$5.50

Worth \$7.00

The following shrubs offered here can be used in many ways about the home grounds, such as groups on the lawn, about the foundation, for screening purposes or in borders. To purchase from list price these sets would cost \$6.75 to \$7.00 each. We have made a selection that will furnish bloom from early spring until autumn. Our offer consists of the following varieties and sizes:

- 2 Weigela Pink, 2 to 3 ft.
- 1 Hydrangea Snow Hill, 2 to 3 ft.
- 2 Buddleia Butterfly, strong, 2-year.
- 2 Deutzia Pride of Rochester, 2 to 3 ft.
- 2 Philadelphus Mock Orange, 2 to 3 ft.
- 2 Forsythia Golden Bell, 2 to 3 ft.
- 2 Snowberry, Red and White, 2 ft.
- 1 Hydrangea P. G., 18 in.

Two Sets for \$10.00

Prices, for Shrub Collection, are net cash with order, packed, F. O. B. cars, Westminster, Md.

Hawthorn (Paul's Double Scarlet Thorn)
Crataegus monogyna var. Paulii

Hardy Perennial Plants

Perennials and bulbs are easy to grow, require no special care and once planted are permanent and the most satisfactory plants in the garden.

Anemone (White)—Semi-double flowers, large. 30c each, 10 for \$2.50.

Bleeding Heart (Dicentra)—An old favorite; heart-shaped; rose color. 85c each, 10 for \$7.50.

Campanula (Bell Flower)—Pleasing tropical effect; white and blue. 35c each, 10 for \$3.00.

Coreopsis (Yellow)—One of the most popular hardy plants. Height 1½ to 2 feet; graceful form and invaluable for cutting. 30c each, 10 for \$2.50.

Columbine (Aquilegia)—An old garden favorite. Thrives in sandy locations. Beautiful combinations of colors. Useful for cut flowers. 25c each, 10 for \$2.00.

Chrysanthemum—Grandmother's hardy garden Mums—white and yellow. Blooms profusely late October and November, after all kinds of flowers have been frost killed. Good for cut flowers. 35c each, 10 for \$3.00.

Digitalis or Foxglove—Pink, white and purple. Grows to 3 feet high. Pretty thimble-shaped flowers. 30c each, 10 for \$2.50.

Gaillardia or Blanket Flower—Dark red, brown in center, with bands of crimson-orange and vermilion. Grows 18 to 24 inches high. Blooms from June to autumn. 25c each, 10 for \$2.00.

Hollyhock—Colossal spikes of bloom, 5 to 8 feet. Good for along fences and boundary line. Colors, crimson, yellow, pink and rose. 30c each, 10 for \$2.50.

IRIS GERMANICA (Fleur-de-Lis) — The national flower of France. One of the most beautiful and showy of the early flowering plants. Fine for cutting, in beauty they rival the finest orchids. Carried in the following varieties:

Darius (S)—Rich canary yellow; (F)—Light margin, white, gold beard.

Dalmarius — Pale gray-blue; (F) — Darker shaded violet-brown.

Florentine Alba—Creamy white.

Juniata—Clear blue.

Loreley (S)—Light yellow; (F)—Blue, bordered light yellow.

Nibelungen — Flowers largely suffused with olive-green and yellow.

Price: 20c each, 10 for \$1.50, 100 for \$14.00

IRIS JAPAN—Flowers of the richest colors; blooms 3 weeks later than the German Iris.

Shigo-No-Urinami—Dark blue, with yellow center.

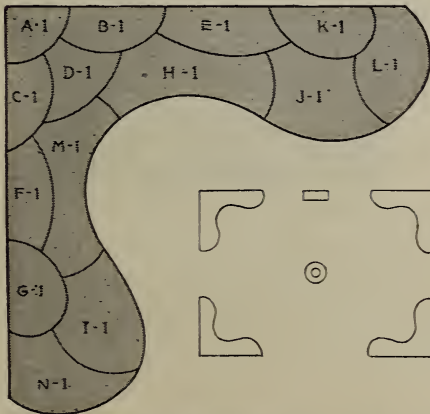

Zama-No-Mori—Dark violet red.

Price: 35c each, 10 for \$3.00, 100 for \$25.00

Lily-of-the-Valley (Convallaria) — Old and familiar to all. Adapts itself to any kind of place and care. Pure white, highly scented; blooms May and June. 35c each, 10 for \$3.00.

A pleasing border of German Iris

Peaches

OUR Peach Trees have made an excellent growth and will grade up fine and we have a good supply to offer. Mostly 5 to 6 feet, 4 to 5 feet and 3 to 4 feet trees. Nice trees. A large stock of Elberta, J. H. Hale and Roberta.

We wish to call your special attention to the fact that every one of our large stock of Peach Trees is budded on North Carolina natural seedlings, the most hardy in the United States. Our trees are well grown, smooth and well rooted. Our prices are low, considering the quality. Let us have your order at once, that we may reserve the varieties for you. Notice about time of ripening for Westminster, Md.

Bilyeau—A variety bearing in October.

Belle of Georgia—A well-known standard variety. Early August.

Champion, W—An early peach of ironclad hardiness. Remarkable for its size and quality, many specimens having attained to the size of ten inches in circumference. Free. August 25.

Chair's Choice—A mid-season bearing peach. September 12th.

Late Crawford—Superb yellow peach; of large size and excellent quality; great bearer. September 18th.

Carman—Large, rich, juicy and of high quality; pale yellow with deep blush; skin very tough. Free from rot and unsurpassed as a shipper. Very hardy and a very profitable market variety.

Captain Ede—An early variety. September 5th.

Elberta—The most popular peach grown. It is hardy, a sure bearer and very prolific. Fruit large, yellow with red cheek. Flesh yellow, firm, juicy and of high quality. A generally successful market peach, North and South. Ripens soon after Early Crawford. Free. September 1st.

Mayflower—A very early bearer. July 1st.

Mt. Rose—A peach of merit. August 15th.

Niagara—In appearance just like Elberta and of same size. However, it is a much better peach in quality, much less subject to leaf curl and other diseases, hardier and about a week later. Free.

O. M. Free—A fine mid-season peach, bearing around September 15th.

Picquet's Late—A good variety. September 28th.

Ray—An early variety. August 10th.

Reeve's Favorite—A mid-season peach of merit. September 12th.

Roberta—In the market at mid-season. September 10th.

Peaches—Continued

Rochester—Earliest yellow peach; red-cheeked; juicy and delicious. Strong grower and early bearer. August 15th.

Smock, Beer's—Large yellow, with dull red cheek; quality second class, hardy, robust and an immense bearer. Free. September 25th.

Fox Seedling—A strong mid-season variety. September 15th.

Greensboro, W—An improvement on the Alexander with which it ripens, but it is double the size and very beautiful. Prolific and of excellent quality. July 4th.

Hale—New. A remarkable peach of the Elberta type, discovered by the late J. H. Hale, of Connecticut, famous as the Peach King of America. Described as a few days earlier than Elberta, hardier in bud and tree and equally productive. Its fruit averages larger, is more round, firmer, heavier and has less fuzz on its skin. In quality and beauty it is at least the equal of Elberta. Free. Early September.

Hiley Early—A very early variety that gets into the market long before the standard mid-season varieties. July 20th.

Iron Mountain—A new variety that is exceedingly popular with growers. September 25th.

Morris White—A medium late variety, maturing about October 1st.

Stump—A variety coming into market just before the Morris White and Salway.

Salway—One of the best and most regular bearers. Very large, creamy yellow with crimson cheek. Flesh deep yellow, juicy, rich and sweet. Early October.

Willett—A mid-season bearer of great popularity. September 10th.

Heath Cling (White Heath Cling)—Originated in Maryland, where it is much esteemed. Of large size and good flavor. September.

Standard Pears

THE home orchard is not complete without pears and they are a very profitable commercial crop in nearly all parts of the country. Pears will live on a variety of soils, but succeed exceptionally well in a hard clay soil. Tilling and fertilizing are advisable to a certain extent, but should not be carried far enough to produce too vigorous a growth. The quality of the pear is much improved by picking before maturity and by proper ripening indoors.

Bartlett—Best and most popular of all pears for market and home use. Color clear yellow with a faint blush on exposed cheek. Fruit very large, thin skinned; flesh buttery and melting, rich musky flavor. Its splendid qualities render it a general favorite everywhere. Tree strong grower, bears young and abundantly. August and September.

Buerre D'Anjou—Great money maker. Fruit large, buttery and melting. Late. Keeps until winter holidays.

Buerre Bosc—A large russet pear with long neck; melting, high flavored and delicious. Bears well. September to October.

Clapp's Favorite—Very large; pale lemon-yellow color, with bright crimson cheek. Flesh finely grained, juicy, melting and buttery. Earlier than Bartlett. August and September.

Duchess (Duchesse d'Angouleme)—Very juicy, with rich, excellent flavor. An all around variety for dessert, cooking and market. Succeeds best as a dwarf.

Flemish (Flemish Beauty)—Large; pale yellow, covered with light russet, turning reddish-brown when ripe, flesh juicy, very sweet, rich and melting.

Kieffer—Medium large; yellow and crimson, with russet and brown; flesh firm and good when ripe; the Ben Davis of the pear family; when properly ripened is delicious. Tree vigorous, with healthy, dark green foliage; an early bearer and very productive everywhere. October.

Lawrence—Medium; lemon yellow, flesh sweet, melting, aromatic; recommended as one of the very best winter sorts. Tree hardy, healthy and productive. Either dwarf or standard. November-December.

Seckel—Fruit small; skin rich yellowish brown, with a deep brownish red cheek. Very juicy; one of the richest and highest flavored pears known. September and October.

Sheldon—Large, round, greenish-yellow in color, covered with light russet. It is very juicy, and has a tasty flavor. The tree is a fine grower and a good bearer. October to November.

Wilder—A valuable early market pear. Regular in form, fair size and very handsome. Greenish yellow color with reddish cheek. Flavor sweet and very pleasant.

Worden (Worden's Seckel)—Medium size; golden yellow, with russet cheek; flesh fine grained, juicy, buttery, with a rich aroma; recommended highly as a dessert and market sort. Tree hardy and an enormous bearer. September.

2 Year	4 to 5 feet	7-16 to 9-16 inch	X . .	.75	6.50	60.00

Sour Varieties

Early Richmond—Medium size, dark red; sprightly acid flavor. This is one of the most valuable and popular of the acid cherries, and is unsurpassed for cooking purposes. Tree a splendid grower and is exceedingly productive. The most hardy of all varieties. Ripens through June.

Dyehouse—One of the best sour cherries for market or home use. It is larger, finer, of better quality and has a smaller pit than Early Richmond. The tree is hardy, is an upright grower and always productive.

Late Duke—Large, heart-shaped, dark, handsome red when fully ripe; flesh light colored, sub-acid; flavor good; one of the latest.

Large Montmorency—A large, red, acid cherry; larger than Early Richmond and fully ten days later.

Olivet—Fruit large, globular, a shiny red sort; ripens early in June and retains its excellence longer than most others.

Crab Apples

Hyslop—Almost as large as Early Strawberry apple. Deep crimson; very popular on account of its size, beauty and hardness; tree vigorous.

Martha—Resembles the Transcendent, but is larger; handsome, showy fruit; bears enormously.

Transcendent—Origin, Russia. Season, September. Fruit medium to large; color a brownish-yellow with blush of carmine; flesh firm and crisp, yellowish, fine grained, very juicy, acid. Tree is a vigorous grower. Hardy. Subject to blight and should not be planted near other orchard trees.

Whitney—Large, glossy green, splashed with crimson; flesh firm, juicy, flavor very pleasant; tree a good bearer and very hardy; ripens last of August.

First class, 4 to 6 ft. high, XXX, each, 85c; \$7.00 for 10.

First class, 4 to 5 ft. high, XX, each, 65c; \$5.00 for 10.

Varieties, Hyslop, Martha, Whitney and Transcendent.

Sweet Varieties

Bing—Fruit large, dark brown or black; one of the most delicious late sweet cherries on the Pacific coast; is considered one of the most profitable. Tree hardy and vigorous; seems to succeed East better than most sweets. Late.

Black Tartarian—Very large, bright purplish black, half tender, juicy, very rich, excellent flavor; productive; free. Ripens first to middle of July.

Governor Wood—Clear, light red, tender and delicious. Hangs well on the tree. End of June.

Ida—Originated in Pennsylvania, and there well tested and grown extensively; ripening with the May Duke, the tree is equally as hardy. The hardiest sweet cherry known. Quality excellent.

Napoleon—A magnificent cherry of the largest size; pale yellow, with bright red cheek; very firm, juicy and sweet. Bears enormous crops; ripens late; valuable for canning.

Windsor—Very vigorous growth; large, liver-colored; very firm; very good; a very valuable variety; hardy. Ripens end of July.

White Oxheart—Fruit large, heart-shaped; skin yellowish white, marbled with red; flesh firm, half tender, rich and delicious. Moderate bearer; season medium.

Yellow Spanish—Vigorous growth, large; pale yellow, with red cheeks; firm, juicy and delicious; very good. Ripens end of June.

Apricots

Acme—A new and fine variety; tree stout, healthy and hardy, with handsome foliage. Fruit large and sweet; rich, yellow with red cheeks. July.

Early Golden—Small, roundish oval; color pale orange with smooth skin; flesh yellow, juicy, sweet and of the best quality; hardy and productive. Freestone.

2 year, 4 to 5 ft. high, XX, each, \$1.00; \$8.50 for 10.

2 year, 3 to 4 ft. high, X, each, 75c; \$6.50 for 10.

Varieties, Acme and Early Golden, etc.

Westminster Plums are Unsurpassed for the Home Garden and Commercial Orchard

Plums

Abundance—The chief asset, which has given the variety its greatest popularity, is its name, abundance in fruit. Tree bears early, a pinkish red changing to a darker red, mottled with thin bloom. August.

Bradshaw—The tree grows large and well formed, bears regularly and heavily. The plums are large, attractive in appearance, being a light purplish red changing to dark reddish at maturity. Keeps and ships well. August.

Burbank—Most prolific variety for the market. The most popular Japan sort. A good keeper and an excellent shipper. Valuable for canning and market. Fruit is large, excellent quality, juicy, tender and fine flavored. Skin is dark red, over a yellow ground, thick bloom. Can be picked before ripe and will color perfectly. The tree is vigorous, very productive and needs close pruning. July.

German Prune—Large, dark blue, rich and agreeable flavor; well thought of for drying and therefore commercially desirable. September.

Lombard—Probably the most widely planted in America, medium size, violet-red in color, hardy and productive, having a good market value. Adapts itself to any soil and will thrive in any climate. A healthy, productive and regular bearer. Extremely hardy. Excellent for canning and preserving. August.

Red June—Closely follows Abundance and Burbank in popularity. The color is a mottled garnet-red overlaid with thin but very distinct and delicate bloom. Ripens early in July.

Moore's Arctic—Small, purplish black, juicy, sweet, immense bearer. One of the hardiest in bud and bloom.

Satsuma—Large, globular, with sharp point. Purple and red. Flesh firm, juicy, dark red color. Vigorous grower.

Shropshire Damson—Is the best known of the Damsons, being found not only in nearly all commercial plantations, but in the smallest home collections as well. Shropshire is enormously productive, bearing its load of fruit year after year until it is a standard among fruits for productivity and reliability in bearing, which is late in season. October.

Wickson—The largest of the oriental plums, if not the largest of all plums. Its handsome color of red and distinct form make it very attractive. A good market variety. September.

Gold—A well-known variety, giving satisfaction wherever grown.

2 year, height 5 to 7 ft., caliper 11-16 in. and up, XXX, each, \$1.00; 10, \$9.50; 100, \$75.00.

2 year, height 4½ to 6 ft., caliper 9-16 to 11-16 in., XX, each, 95c; 10, \$9.00; 100, \$70.00.

2 year, height 4 to 5 ft., caliper 7-16 to 9-16 in., X, each, 75c; 10, \$6.00; 100, \$50.00.

Quinces

Champion—A beautiful large quince of a golden yellow color, bears abundantly quite late in season. Last of October.

Meech's Prolific—Ripens earliest of all quinces. Quality unsurpassed and quince itself is very large, of a yellowish color.

Orange—This fruit, of a bright golden yellow, is considered one of the best for its quality. Ripens in October.

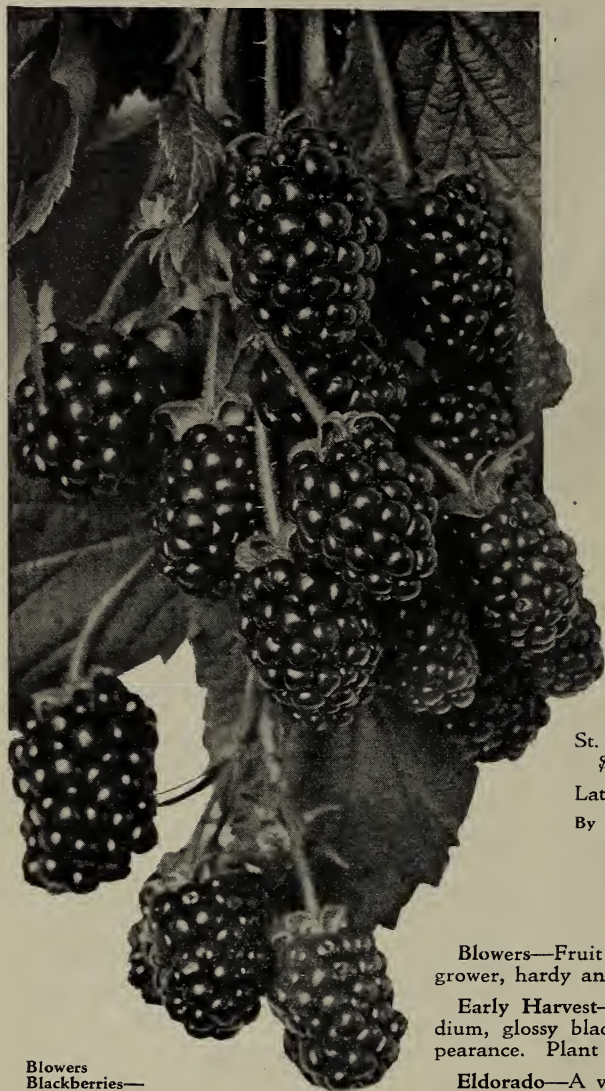

Bourgeat—Very large, smooth, golden-yellow. Tender and is a good keeper. Very productive and healthy.

2 year, height 4 to 6 ft., XXX, each, \$1.05; 10, \$10.00; 100, \$75.00.

2 year, height 3 to 4 ft., XX, each, \$1.00; 10, \$8.50; 100, \$70.00.

2 year, 2 to 3 ft., X, each, 75c; 10, \$7.00; 100, \$60.00.

Parcel Post Size, 2 to 3 feet, add 5c per tree extra

Blowers
Blackberries—
A Favorite with Growers

Raspberries

Cumberland (Black)—In hardiness and productiveness it is unexcelled by any other variety; berries are large and fine; quality very similar and fully equal to Gregg; fruit firm and will stand long shipments. Ripens mid-season.

Eureka (Black)—Very glossy black, large, juicy, rich, hardy and very productive. A valuable, very early variety.

Kansas (Black)—Originated at Lawrence, Kansas; healthy, vigorous and not subject to leaf blights; produces strong, healthy tips; fruit large, as fine a berry as Gregg and equally as good a shipper; ripens early; very prolific.

St. Regis—A new acquisition to the Red Raspberry family. Fruit commences to ripen with the earliest and continues on young canes until October. Large, bright crimson; flesh firm and meaty. Good shipper and very prolific.

Latham—A new Red Raspberry that is extraordinary in its size, productiveness and hardiness. A favorite among growers.

Cumberland (Black)—10, 75c; 100, \$4.00; 1000, \$25.00.

Kansas and Eureka (Black)—10, 75c; 100, \$3.75; 1000, \$25.00.

St. Regis Everbearing (Red)—10, 75c; 100, \$4.00; 1000, \$30.00.

Latham (Red)—10, \$1.00; 100, \$8.00.

By Parcel Post add 1c per plant extra. Special prices given on large quantities

Blackberries

Blowers—Fruit large and of good quality; plant a strong grower, hardy and productive. A promising new variety.

Early Harvest—The earliest of the Blackberries; fruit medium, glossy black; good quality, firm and attractive in appearance. Plant hardy and productive.

Eldorado—A valuable variety; medium size, jet black, melting, sweet and rich; hardy and very productive.

Lucretia Dewberry—Fruit very large, luscious and handsome; perfectly hardy; a strong grower and very productive; a superb and profitable market fruit.

Snyder—Very hardy and productive; fruit of medium size, with no hard, sour core; half as many thorns as Kittatiny, and they are straight and short; comparatively free from rust; a safe and profitable berry to plant; succeeds and yields well anywhere.

Snyder. Each, 15c; 10, 60c; 100, \$4.00; 1000, \$30.00.

Early Harvest. Each, 15c; 10, 60c; 100, \$4.00; 1000, \$30.00.

Eldorado. Each, 15c; 10, 75c; 100, \$5.00; 1000, \$40.00.

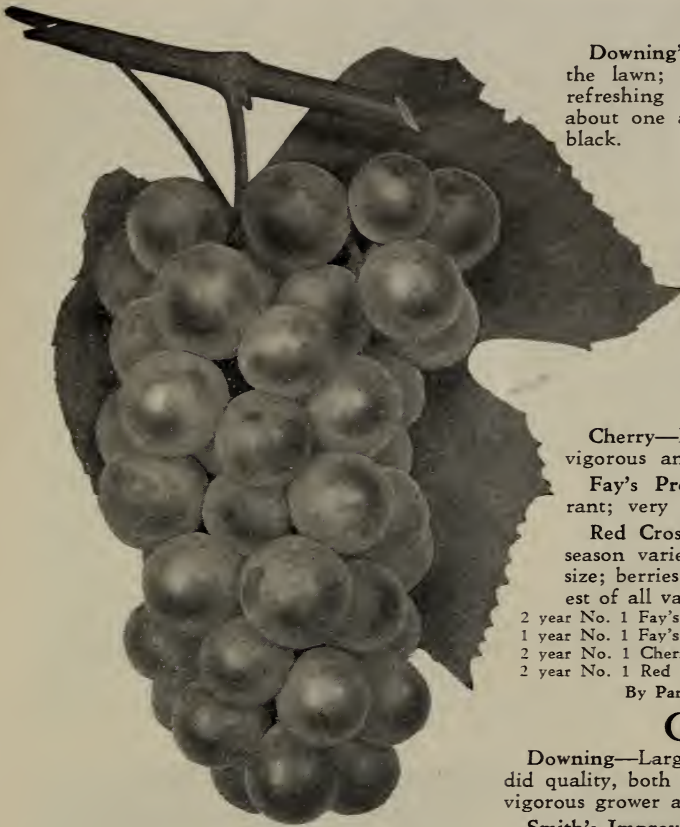

Blowers. Each, 15c; 10, 75c; 100, \$5.50; 1000, \$35.00.

Lucretia Dewberry. Each, 10c; 10, 60c; 100, \$4.00; 1000, \$30.00.

Grapes

Moore's Early—A large, purplish-black berry; sweet and of good quality, ripening about ten days earlier than Concord. Vine vigorous and hardy.

Worden—Bunches large and almost black when fully ripe; berries large and thin-skinned; juicy and highly flavored; about ten days ahead of Concord.

Catawba—A good, long-lived market variety; much in demand for wine and champagne; large berries, copper-red and purplish. Requires a long season. Excellent keeper. Late September.

Agawam—Red in color; skin thick and berries large. Ripens early and is very vigorous. Late September.

Niagara—A leader among the white varieties; a highly profitable market grape; both the berry and bunch are large, greenish-white tinted with pale yellow when ripe. Skin is thin, but tough; plant is hardy and a good yielder.

Moore's Diamond—Leading early white grape with yellowish tinge; bunches large, very few seeds, juicy and free from pulp. Vine vigorous in growth, bears early September.

Mulberries

Downing's Everbearing—A beautiful tree for the lawn; bears an abundant supply of sweet, refreshing fruit for several weeks; berries are about one and one-half inches long; color blue-black.

Hick's Everbearing—Medium, very sweet and good; tree vigorous and profuse bearer. Season extends over three months.

New American—Equal to Downing in all respects and much hardier tree. Vigorous grower and very productive; ripe from middle of June until September. Color black. 4 to 6 ft., each, \$1.25; 10, \$10.00.

Currants

Cherry—Large, red; bunches short; plant is vigorous and productive.

Fay's Prolific—The most popular Red Currant; very large and handsome.

Red Cross—This is a strong growing, medium season variety; clusters are long and of medium size; berries are large in size. Probably the sweetest of all varieties.

2 year No. 1 Fay's Prolific, each, 25c; 10, \$2.00; 100, \$18.00.
1 year No. 1 Fay's Prolific, each, 20c; 10, \$1.75; 100, \$15.00.
2 year No. 1 Cherry, each, 20c; 10, \$1.90; 100, \$18.00.
2 year No. 1 Red Cross, each, 25c; 10, \$2.50; 100, \$20.00.

By Parcel Post add 2c per plant extra

Gooseberries

Downing—Large, handsome, pale green and of splendid quality, both for cooking and table use. Bush is a vigorous grower and usually free from mildew.

Smith's Improved—Large, light green fruit, sweet and of good quality; vigorous and productive.

2 year No. 1 Downing and Smith Improved, each, 30c; 10, \$3.00; 100, \$20.00.

2 year No. 1 Industry and Pearl, each, 40c; 10, \$3.75.

By Parcel Post add 2c per plant extra

Concord—More Concord plants by vineyardists than all other varieties combined. Berries large, black, covered with rich bloom.

Campbell's Early—One of the best of the early varieties; a comparatively new grape; especially successful for market purposes; flavor rich and sweet; clusters are large and handsome, black with light purple bloom; vine strong and vigorous grower.

The New Caco—Red; has a most delicious flavor of the highest quality. Cross between Concord and Catawba. The vines are very strong growers, hardy, healthy and prolific. Ripens early.

2 year No. 1, each, 35c; 10, \$3.00; 100, \$18.50.

Varieties, Moore's Early, Worden, Catawba, Agawam, Niagara, Moore's Diamond.

Concord, 2 year No. 1, each, 30c; 10, \$2.50, 100, \$12.00.

Concord, 1 year No. 1, each, 20c; 10, \$1.50; 100, \$10.00.

Campbell's Early, 2 year, each, 45c; 10, \$4.00; 100, \$35.00.

Caco Early, 2 year, each, 60c; 10, \$5.00; 100, \$40.00.

Strawberries

ANY soil that will produce a good crop of corn is adapted to growing good Strawberries, but as they should be kept free from weeds, we believe it will pay you to select land free from weed seed, even if it is not your richest land. All plants of this class, tied 25 plants in a bunch; less the usual discount for cash with orders. Plants nicely packed on cars here. If by mail, add 10c per 100 plants. No plants dug for shipment after October 1st.
